RE: Docket No. 04-00434 – Wastewater Forum

Dear Ms. Standley:

As per my conversation with Ron Jones on September 9, 2005, at the present time our county does not require any type of bond for a wastewater utility.

Jefferson County took over the Ground Water Division on March 10, 2004, and since that time no wastewater utility has asked to operate in our county. We have discussed this matter with the County Mayor, and the Board of Zoning and Planning about requiring a bond to be in place before receiving approval to construe the system within our jurisdiction. Also, a permit and final approval to be in place on the installation of effluent tank pump tank on each individual lot for wastewater system.

As of now, we are still in the preliminary stages of bond and permit requirements. Hopefully within the next ninety (90) days we will have more information to forward to you.

If you have any further questions, please feel free to call our office at 865-397-1617.

Sincerely,

Tom C. Carter  
Director, Environmental Health

CC: Gary Holiway, Jefferson County Mayor
